Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response

1. The response filed on 6/13/2005 has been received and made of record.
2. Applicant's arguments with respect to claims 1-33 have been considered but are moot in view of new grounds of rejection.
3. This application has been reviewed. Original claims 1-33 are pending. The rejection cited stated below.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Art Unit: 2157

6. Claims 1-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bakshi et al., U. S. Patent No. 6,772,200[herein after Bakshi] in view of Petty et al., U.S. Patent No. 6,342,907[hereinafter Petty].

As per claims 1, 14, and 24, Bakshi discloses a method of parsing content received by at least one client coupled to a server, said method comprising: receiving, by at least one client, a parser from a server (see fig. 6 and col. 7, lines 21-47);

parsing the received content by said at least one client (see fig. 6 and col. 7, lines 21-47).

Bakshi is silent regarding: reconstructing said parser in a web browser operating in said at least one client.

Petty discloses a content parsing system parsing content for display at the client device including reconstructing (i.e., rendering) said parser in a web browser operating in said at least one client (see fig. 10 and col. 10, lines 20-26).

Therefore, it would have been obvious to one having ordinary skill in the art to incorporate the teaching of Petty into the system of Bakshi to generate the received content in a proper format for display to user.

As per claim 2, 15 and 25, Petty discloses the method of claim 1, wherein said parser is received by said at least one client as a collection of Java classes and a serialized Java object (see col. 7, lines 7-22).

Art Unit: 2157

As per claims 3-4, 16-17 and 26-27, Petty discloses the method of claim 2, further including the acts of:

parsing said received content using a Java portion of the client-side parser (see col. 7, lines 7-22); and

placing a call, as needed, into JavaScript for a rule script (see col. 7, lines 7-22).

As per claims 5-13, 18-23 and 28-33 Bakshi discloses the method of claim 3, further including the acts of:

selecting, by said at least one client, a parsing object corresponding to said received content, said parsing object containing at least one parsing rule having at least one expression (see fig. 6 and col. 7, lines 21-47); and

parsing, by said at least one client, said content according to said at least one parsing rule (see fig. 6 and col. 7, lines 21-47).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Salad E Abdullahi whose telephone number is 571-272-4009.
